Report from Matanzas.

MATANZAS, CUBA, *September 15, 1902.*

SIR: I have the honor to submit the following report for the week ended September 13, 1902: Six bills of health were issued to vessels leaving this port for the United States. On September 10, 1902, the Spanish steamship *Argentino*, with cargo of sugar, was disinfected prior to sailing for New Orleans. Eighteen deaths occurred in this city, due to the following causes: Tuberculosis, 2; broncho-pneumonia, 2; infantile tetanus, 3; gastro-enteritis, 1; Bright's disease, 1; arterio-sclerosis, 3; other causes, 6. Annual rate of mortality for the week, 19.25 per 1,000. No quarantinable disease was reported.

Respectfully, R. H. VON EZDORF,
Assistant Surgeon.

The SURGEON-GENERAL.

Reports from Nuevitas.

NUEVITAS, CUBA, *September 9, 1902.*

SIR: Through Surg. A. H Glennan, I have the honor to make the following report of the transactions at this station for the weeks ended August 30 and September 6, 1902: During this period 3 bills of health were issued to vessels clearing for ports in the United States. There were inspected 35 passengers and 101 in crews. There has been no quarantinable disease reported in any port in this district. The Norwegian steamship *Volund*, leaving this port for Galveston, Tex., August 24, 1902, was partially disinfected and a certificate to that effect attached to her bill of health. Eleven health certificates were issued, 19 pieces of baggage inspected and passed, and 3 bags of hair disinfected by steam. The mortuary reports are as follows:

Nuevitas.—Athrepsia, 1.
Puerto Padre.—No deaths.
Gibara.—Rachitis, 1.
Banes.—Arterio-sclerosis, 1.
Baracoa.—No report.

Respectfully, E. F. MCCONNELL,
Acting Assistant Surgeon.

The SURGEON-GENERAL.
